**3. RISK MANAGEMENT:**

The primary objective of the Company's risk and financial management framework is to have efficient and effective risk management systems in place. The Company has established a risk management function with clear terms of reference from the board of directors, its committees and the associated executive management committees. This is supplemented with

clear organizational structure with documented delegated authorities and responsibilities from the board of directors to executive management committees and senior managers.

The board of directors approves the Company's risk management policies and meets regularly to approve any commercial, regulatory and organizational requirements of such policies. These policies define the Company's identification of risk and its interpretation, limit structure to ensure the appropriate quality and diversification of assets, align underwriting and reinsurance strategy to the corporate goals, and specify reporting requirements. The Company's overall business strategies, its tolerance of risks and its general risk management philosophy are determined by management in accordance with prevailing economic and operating conditions. The Company takes care of its Asset-Liability Management (ALM) with the help of the appointed actuary.

The key financial risks include exposure to underwriting, credit, liquidity risk, currency, price and interest rate risk arise in the normal course of business.

**In terms of Enterprise Risk Management Strategy, III's has developed the following:**

- Articulate and communicate a clear understanding of how the Company intends to approach risk management across the firm;
- Set clear objectives for risk management, as set out in this document, in line with the Company's strategic objectives and priorities;
- Define a common risk language so that there is a consistent understanding when communicating risk information across the Company;
- Develop a risk categorisation framework to ensure that the analysis of risk can be broken down into risk areas driving common behaviour patterns;
- Develop and communicate the importance of a risk aware culture across the Company; and
- Align the risk management activities to the strategic objectives of III in order to manage risks to support the delivery of the business plan.

**In terms of governance over the ERM activities, III has undertaken the following:**

- Risk governance framework designed to prevent, mitigate and manage risk through a line of defence model providing for an effective balance of business control and oversight and assurance testing;
- Governance principles embedded in the values, behaviours and code of conduct throughout the Company;
- Strong oversight by the Board on all key decisions and challenges;
- Board and Executive Management interact effectively to deliver an agreed overall business strategy;
- Organizational structure that encourages clear accountability and ownership aligned with legal entity structure; and

- Board oversees execution of strategy consistent with local regulatory and governance requirements.

All the above has been documented in III ERM Policy and III ERM Framework

Please refer to Note No. 22 of Notes to Financial Statements of Annual Report for 2015 for further details on Risk and Financial Management.

### **4. CAPITAL MANAGEMENT:**

The primary objective of capital management is to ensure maintaining a strong credit rating and healthy capital ratios in order to support the business and maximize shareholder value. Capital includes equity attributable to the owners of the Company less the fair value adjustment reserves. The Company manages its capital structure and makes adjustments to it, in light of changes in economic conditions.

The Company is subject to minimum capital requirements under the Insurance Act. To determine its capital for regulatory purposes, the Company makes certain adjustments to the carrying values of its assets and liabilities. The regulatory capital requirement is determined by the application of statutory formulae to the Company's business information and has complied fully with these capital requirements.

#### **Table for Capital Adequacy Ratio (CAR)**

	<b>31.12.2015</b>	<b>31.12.2014</b>	<b>31.12.2013</b>

Minimum Capital Adequacy Ratio	120%	120%	120%

## 5. FINANCIAL ASSETS (INVESTMENT) MANAGEMENT:

The Company has conservative investment approach. The investments are done in accordance with the Board approved investment policy. The Company's Investment Objectives are

- To acquire and maintain quality assets that will meet the liabilities of the Company;
- To be able to generate Optimum Returns along with the Safety of the funds;
- To adhere to all Regulatory provisions;
- To conduct all the related activities in a cost effective and efficient manner.

To achieve these objectives,

The Company's strategy of continuously reviewing the available investment options and cautious selection with a goal to spread the risk and modify the portfolio mix has yielded good results, which shall be maintained. Conservative investment philosophy of the

Company will continue in the long term, however in the medium term in order to augment the investment income, in this current low interest rate regime, the focus would be more on fixed income bonds/equity which falls within the ambit of investment policy of the Company.

Reporting of Investments is done in accordance with FRS 107. Note No. 2.14 & 23 of Notes forming part of Accounts of Annual Report 2015 explains in detail the valuation and reporting of Investments in the Books of Accounts.
